

CONNECTED CARE, QUALITY CARE

Live your highest quality of life on your terms! Electronic Caregiver provides comprehensive Emergency Response Services (ERS) to protect your health and independence. Electronic Caregiver services help reduce falls, suffering, loss of independence, and nursing home admissions.

These solutions help ensure you stay on track with your health plan, have flexible reminders, and communicate to your loved ones in real-time. During an emergency, whether it be a health-related occurrence or a personal safety intrusion, the service is activated with the push of a button, and our 24/7 EMT operators open a two-way, hands-free communication link with you.

If you are interested in learning more, connect with our team or contact your local Case Manager to request further information.
